

Kenan Qanas

Syria, Homs. 

(+963) 991169431 

Kenanqanas500@gmail.com 

www.linkedin.com/in/kenan-qanas 

Flutter developer with 2+ years of experience in building mobile apps. Strong experience in building and developing apps, within a suitable code division for modification, additions and fast bug detection. I also have the ability to work in a team and collaborate with them to give the best productivity.

Experience

1/2022 – 12/2022

Maintenance Applications/UCT Company, UAE, Remote

Fixing and modifying applications to suit the work, in addition to detect errors. Working within a team to test applications and organize the content for each application, and uploading several versions to the stores.

Each application was modified with a different state management, which gave me the ability to deal with several state management tools.

JANUARY 2023 – MAY 2024

Flutter Developer/ Metanest Agency Company, Lebanon, Remote

Multiple applications were built for other companies or for the company itself within an integrated programming team. The application was prepared and built from scratch using a specific state management tool, which supports an easy and professional programming structure, division, scalable and maintainable. Notifications were also used in all applications and made to simulate reality, for a fast user experience. And using programming tools and folders that make it easier for us to detect errors. The development was done in parallel and synchronized through VCS (GitLab).

JANUARY 2024-UNTIL NOW

Flutter Developer/ freelancer for Dr.technologi Company

Skills

Flutter • Dart • APIS • Firebase • Notifications • Clean code • Dependency Injections • Getx • Cubit (bloc) • Responsive app • Multi themes • Multi languages • VCS • Animation • Local storage • clean arch
